Title:	Article: Integration of mental and behavioral health services into primary care settings
Date:	January 2014
Type:	Article
Author(s)/ Presenter(s):	Mary L. Forte, et al.
Abstract (or Book Review):	Health care at the interface of medical and mental health in the United States is problematic. The goals of mental and behavioral health service integration into primary care settings are to reduce the fragmentation and inadequate care of mental health problems in primary care patients and to improve the care of medical issues complicated by mental health problems.
